Dear Human Rights Defender,

Sub: A Quick Survey of the problems faced by the Senior Citizens with regard to their Old Age Pensions
In response to the request of PUCL, we have done a quick survey of Senior Citizens in Bangalore, Davenagere and Bijapur with regard to Old Age Pensions.

The list is enclosed for your reference indicating the difficulties against the respective names of the Senior Citizens.

As you can see, many of them aged over 70 years, only received their pensions upto January or February 2020. This has been the normal practice of crediting pensions. It is always delayed and often 2 or 3 months pension is credited at one time. Most Senior Citizens do not have phones and therefore have to make repeated trips to the post office or to their banks to inquire if their pensions have been deposited. These Senior Citizens after their hardworking life, in conditions that have taken a toll on their health, invariably suffer from either blood pressure, diabetes or osteoporosis. Often they have multiple chronic illnesses.

AIKYATHA has been spearheading a campaign for dignity to these elderly persons who have given nearly 50 years of labour as workers in the informal sector as well as caring for children and grandchildren. The pension was a meagre Rs.50.- per month when AIKYATHA was started in 1986. This paltry sum is contributed by Government of India and the Government of Karnataka. We have been campaigning for a decent pension calculated on the number of years of service rendered or at least 50% of the prevailing minimum wage. In terms of health we have urged the Government to provide mobile clinics exclusively for the elderly in the slums. Currently there are no specialised geriatric wards or specialists equipped to serve these elderly in the Primary Health Centre. Medicines are dispersed only for a week at a time, compelling them to make several trips and often wait for stocks to arrive.

After a prolonged campaign by AIKYATHA the BBMP in 2008 commenced the midday meal scheme for the elderly which was stopped all of a sudden in 2012 due to paucity of funds. A four year relentless campaign resulted in the recommencement of the scheme in 2017. This too cannot be claimed as a matter of right and many go starving when the supply stops for reasons unknown and undisclosed.

The current crisis caused by Covid19, has hit the elderly very hard. They are the most vulnerable due to their age and many pre-existing health conditions.

Their movement is restricted, neither can their children or grandchildren go to the bank/post offices to verify their account. The survey shows that most of them have received pensions for the month of January and February 2020. They are not sure whether the pension for March is deposited.

Under the circumstances we urge you to put forth these issues to the concerned and ensure:

* The Government deposits three months pension into their accounts with immediate effect as promised,

* The Government direct the banks/post offices to make special arrangements to depute staff to intimate the pensioner of the amount available within the respective accounts.

* Provide mobile banking extension counters at the residential areas of the Senior Citizens during this crisis.

The survey was done at short notice and was a sample survey but we assure you that it is typical of their present condition. However, we will be happy to do a full survey if required. Please let us know.

Yours sincerely,

Lathamma
President
Aikyata
